

VOLUME 50
1976

The
INDIAN
CONCRETE JOURNAL

Founded in 1927

Published for and on behalf of the Concrete Association of India — a Division of the Associated Cement Companies, Limited—by Col C. L. PROUDFOOT (Retd)

Acting Editor : B. T. UNWALLA, BE FIE(Ind) FIStructE(Lond)

Associate Editor : T. M. MENON, MSc(Eng) (Lond) DIC(Lond) BA BE MIE(Ind)

ISSUE	PAGES
January	1-32
February	33-66
March	67-98
April	99-130
May	131-162
June	163-194
July	195-226
August	227-258
September	259-290
October	291-322
November	323-354
December	355-388

ACCOPROOF news .. 56, 151, 251, 348	
Adequacy of road bridges for the movement of the 300-tonne transporter of the Department of Atomic Energy	7
Adequacy of road bridges for the movement of the 300-tonne transporter of the Department of Atomic Energy (letter)	165
Admixtures for high early strength in concrete, Investigation of	279
Anchorage zone of pre-tensioned members, An experimental study of transverse tensile stress	378
Assessment of fire damage (notes)	71

AUTHORS

Agarwal, B. L., Bajpai, V. D. and Jain, S. P., on Quality control of concrete at Ramganga Project 169, 201	
Akolkar, P. M., on High temperature effects on structural properties of haematite sand grout	7
Annamalai, G., Parameswaran, V. S. and Shammugasundaram, J., on Experimental investigation of the flexural behaviour of autoclaved cellular concrete roof and floor slabs	110
Balakrishnan, S. and Ramakrishnan, V., on Elastic and limit state deformations of reinforced concrete space frames	85
Bajpai, V. D., Jain, S. P. and Agarwal, B. L., on Quality control of concrete at Ramganga project .. 169, 201	
Basavarajaiah, B. S., Govinda, D. and Raju, N. K., on Flexural behaviour of prestressed concrete beams with confined concrete in the compression zone	181
Biswas, Arun, on Vertical slipform	360
Chhauda, J. N., on Non-destructive testing of concrete by the Schmidt rebound hammer	19

	PAGE
Chhauda, J. N., Kapla, M. S. and Tamhankar, M. G., on Fatigue tests on concrete hinges	57
Datta, O. P. and Gupta, B. B., on Pong power-plant	238
Desayi, P., on Cracking of reinforced and prestressed concrete members	146, 187
Gadgil, M. G. and Kalani, M., on Matrix methods of analysis of frames with haunches	309
Govinda, D., Raju, N. K. and Basavarajaiah, B. S., on Flexural behaviour of prestressed concrete beams with confined concrete in the compression zone	181
Gunasekaran, M., on Feasibility of using high strength polymer-impregnated concrete rods as compression reinforcement in corrosion prone structures	341
Gupta, B. B. and Datta, O. P., on Pong power-plant	238
Gupta, S. P. and Pandit, G. S., on Tests for failure mechanism of reinforced concrete beams in combined bending and torsion	345
Iyengar, K. T. S., Nandi, U. S., Koti, B., Nagaraj, T. S. and Vishwanatha, C. S., on Some studies on polymer concrete	117
Jain, O. P., on Construction of a reinforced concrete prilling tower	140
Jain, S. P., Agarwal, B. L. and Bajpai, V. D., on Quality control of concrete at Ramganga project 169, 201	
Jain, V. K., Rai, M. and Rajagopalan, P. R., on Ultrasonic testing of cement mortar subjected to corrosive chemicals	213
Joshi, L. S., on Concrete dam construction: a critical path method approach	367

	PAGE
Hafeez Khan, T. A., Reddy, T. S. and Murthy, P. S., on An experimental study of fibre-reinforced concrete beams under pure torsion	314
Kalani, M. and Gadgil, M. G., on Matrix methods of analysis of frames with haunches	308
Kalayansundaram, P., Krishnamoorthy, C. S. and Rao, Srinivasa P., on End-zone stresses in pretensioned prestressed concrete beams	303
Kapla, M. S., Tamhankar, M. G., and Chhauda, J. N., on Fatigue tests on concrete hinges	57
Koti, B., Nagaraj, T. S., Vishwanatha, C. S., Iyengar, K. T. S. and Nandi, U. S., on Some studies on polymer concrete	117
Knapton, J. and Lilley, A. A., on Concrete block paving for roads — 1	363
Krishnamoorthy, C. S., Rao, Srinivasa P. and Kalayansundaram, P., on End-zone stresses in pretensioned prestressed concrete beams	303
Krishnamoorthy, S., on Performance of fly-ash Portland cement concrete under different conditions of curing	371
Krishnamoorthy, S., and Nafday, A., on The steel required in ultimate strength design for reinforced concrete members in flexure according to the Indian, ACI and British Standard Codes	121
Krishnamoorthy, S. and Singh, Tejinder, on Economic steel ratios for reinforced concrete members in flexure in ultimate load design	219
Lal, K., Singh, Ranbir and Upadhyaya, V. G., on Bloated clay: an unconventional artificial lightweight aggregate	174
